Intervention

Willunga High School

The Intervention program is a targeted Literacy and Numeracy program that students in Year 8 may choose to undertake instead of studying a Language. Students remain in their class for all other subjects.

In Intervention students:

- Develop their basic Literacy and Numeracy Skills
- Develop their communication skills
- Develop life skills such as budgeting, cooking and problem solving
- Undertake targeted Literacy and Numeracy Intervention Programs such as MULTILIT, Mathletics and Reading Doctor
- Have the opportunity to catch up on work for core subject that may be outstanding, while being provided with teacher support
- Undertake hands-on activities that enhance their learning (garden project, individual projects and cooking)

Intervention is suitable for:

- Students with a diagnosed Disability or Learning Difficulty
- Students who have been identified and recommended by their Primary School

Parents/caregivers of students who have been recommended for the Intervention program will be contacted in Term 4, 2016 to discuss further.
