5 August 2016

Dear Parent/Caregiver

As part of our educational programme, teachers find it useful to take their students on walks along the Linear Walking Track and excursions around the local Willunga area. Apart from the obvious health and physical fitness benefits, these walks also provide the opportunity for activities including:

- Local history and small industry visits for Society and the Environment.
- Students studying local waterways and ecosystems.
- Environmental drawing for Art.

Another major benefit is that teachers and students will have the chance to further develop positive working relationships outside of the classroom setting.

During these walks, students will be supervised by their teacher and teachers will carry basic first aid equipment. The front office will be notified of the destination and intended return time in all cases.

In the case of large-scale excursions, a formal consent form will be sent home for parental information.

Yours sincerely

Haley Przibilla
Assistant Principal Middle School

Anthony van Ruiten
Principal

I give/do not give permission for my student _____________________________ Home Group ___________ to participate in supervised walks and subject based excursions within the local Willunga area. I understand that in the case of large-scale excursion outside of the local area, a formal note will be sent home. This permission will cover the whole time that the student is a member of the school community.
